SPRAY ADHESIVE

Aerosol Adhesive

Description

A fast acting, easy to use adhesive in an aerosol can.

Uses

Bond It **SPRAY ADHESIVE** has a variable nozzle to give a fan pattern for large surfaces or a direct jet for precise applications.

It can be used for bonding flexible foams and laminating fabrics to foam, particularly in the furniture industry. A tacky adhesive for the temporary bonding of polythene sheets for dust-proofing. Replaces double sided tape in dusty or difficult to access areas. General bonding of metal, wood, paper, cork, rigid plastics, rubbers, fabrics and concrete.

A light coating will also prevent palletised materials from slipping.

Application

Shake well before use. Choose spray pattern appropriate for the application by turning the insert in the nozzle. Protect surrounding areas from potential over spray. Spray in a uniform pattern. Allow solvent to flash off then bring the components together and apply firm pressure to ensure good contact.

Limitations

Not recommended for use on polystyrene or plasticised PVC.

Container Size

500ml aerosol can.

Storage Conditions

Store in cool, dry conditions, Store below 50°C and away from sources of heat, ignition and direct sunlight.

Disposal of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Replace lids and remove any containers to a central disposal point in accordance with local regulations. Do not pierce can.

In the event of spillage remove all sources of ignition, ventilate the area, remove people from confined areas. Material should be mopped up immediately with an inert absorbent material such as sand.

Health & Safety

- ◆ Highly flammable - remove all sources of ignition. Do not smoke.
- ◆ Avoid eye contact. In the event of contact wash with running water for 15 minutes and seek medical attention. Wear goggles.
- ◆ Ensure good ventilation - avoid breathing vapours.
- ◆ Avoid prolonged contact with skin. Can cause de-fatting which can lead to dermatitis. Wear gloves or use a suitable barrier cream.
- ◆ Thoroughly wash hands with soap and water or a proprietary hand cleaner after use.
- ◆ Keep out of reach of children.
- ◆ See separate material safety data sheet for full handling, use and storage.

Specification Summary

Flammability	Extremely flammable
Flash Point	- 41°C
Appearance	Sticky resin
Solubility in Water	Insoluble
Boiling Point	71°C

Container Sizes:

Code:	BDA007
Size:	500ml

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties rights and, if necessary clarifying the position. Recommendations for use do not constitute a warranty, either expressed or implied, of the fitness or suitability of the products for a particular purpose.
