# DRIVE ALIVE COLOUR ENHANCER

## Description

*A ready-to-use, coloured solution for use on concrete, block paving and paving slabs.*

- **Restores colour.**
- **Reduces water penetration; staining and dirt/grime build-up.**
- **UV stable formulation.**
- **Ready to use.**
- **Helps inhibit organic growth.**
- **Solvent free.**

## Uses

Designed to enhance coloured concrete and block paving, protect from water penetration, oil or grease spillages and dirt/grime build-up. Will enhance present colour and extend the lifespan of the treated surface.

### Benefits:

- Solvent-free formulation - low odour.
- Facilitates easier cleaning.
- Improves water resistance and UV resistance.
- Contains fungicide which retards mould growth.

## Preparation

Remove any moss or lichen that may be present. For best results use DRIVE ALIVE ORGANIC CLEANER prior to application (ensure the residue is thoroughly washed off and left to dry for 48 hours prior to application.) Ensure the surface to be treated is free from oil (DRIVE ALIVE OIL STAIN REMOVER should be used to remove any oil stains), grease, dust and any other loose material that may hinder adhesion. It is recommended that a test be carried out on a small inconspicuous area to ensure the required effect is achieved. Mask off all areas not to be coloured as product cannot be removed once applied. Wear gloves and overalls to protect clothes and skin from splashes. Place the container on polythene or cardboard prior to opening to contain any drips.

## Application

**DRIVE ALIVE COLOUR ENHANCER** is ready to use, and does not require diluting. Stir well before use and periodically during application. A test on a small inconspicuous area is recommended to determine

the depth of colour required. Apply using a brush or roller. Do not over apply or allow puddling. This product will dry in 1 to 2 hours on a dry sunny day; however, cold or humid conditions will slow drying times. Do not traffic for 3-4 hours after application. Only to be used in conjunction with other BOND IT DRIVE ALIVE products. Wash hands and tools with soapy water after use.

## Limitations

Do not apply to wet or damp surfaces or in conditions of high humidity. Surfaces should be allowed to dry completely for 48 hours prior to application. Do not use if rain is imminent (protect from rain until dry). Do not apply to non-porous surfaces. Keep children and animals away and do not traffic until fully cured. Do not allow any run off to contaminate drains, waterways or plants. Do not use in temperatures below +5°C and above +30°C.

## Storage Conditions

Store in cool, dry conditions in original sealed container. Keep away from direct sunlight and protect from frost.

## Shelf Life

24 months when stored according to manufacturers instructions.

## Coverage

One 4 litre container will cover approximately 40-60m<sup>2</sup> depending on surface porosity for a single coat.

## Disposal of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Replace lids and remove any containers to a central disposal point in accordance with local regulations.

## Health & Safety

- ◆ Product presents a low hazard in correct use.

- ◆ Avoid eye contact. In the event of contact irrigate eyes immediately with plenty of cold, clean water for 15 minutes and seek medical attention.
- ◆ Do not ingest. In the event of ingestion, do not induce vomiting, drink plenty of water and seek medical attention.
- ◆ Thoroughly wash hands with soap and water after use.
- ◆ Keep out of reach of children.
- ◆ Some people are more sensitive to chemical products than others. If irritation occurs discontinue use.
- ◆ See separate material safety data sheet for full handling, use and storage.

## Specification Summary

Physical Properties	Coloured liquid, non flammable, zero VOC, water miscible.
Application:	STIR WELL BEFORE USE AND PERIODICALLY DURING USE. Do not apply to wet surfaces, in high humidity or when rain is expected
Application Temperature Range	5°C to 30°C
Drying Time	1-2 hours in warm, sunny conditions
Coverage Rate	40 - 60m <sup>2</sup> per 4 litre container
Cleaning	Rinse then wash brushes and rollers in warm, soapy water
Shelf Life	2 years
