PC600 NOISE BUSTER

Boiler Noise Silencer

Description

A central heating boiler noise silencer.

Uses

PC600 NOISE BUSTER is a special blend of chemicals which when added to a central heating system reduces noise from the boiler and radiators due to limescale or sludge build-up. It reduces kettling and knocking.

Application

For best results pretreat the system with PC400 FLUSHCHEM prior to using NOISE BUSTER. Ensure that after pre-treatment with FLUSHCHEM the system is treated with PC100 or PC200 INHIBITOR.

Shake the bottle of PC600 and add the entire contents into the central heating feed and expansion tank. PC600 will be gradually drawn into the system over a period of up to 6 weeks. Bleed radiators after 2-3 days and again after 2-3 weeks after this time a noticeable difference should be heard.

For combi systems add to a partially drained radiator.

LIMITATIONS

DO NOT ADD TO PRIMATIC SYSTEM. Not suitable as a kettle or other domestic appliance descaler.

Storage Conditions

Store in cool, dry conditions in tightly sealed container. Do not allow to freeze.

Shelf Life

12 months in original, unopened containers.

Disposal of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Replace lids and remove any containers to a central disposal point in accordance with local regulations.

Health & Safety

- ◆ Low hazard product - safe in normal use.
- ◆ Wear gloves, wash splashes off skin with soap and water.
- ◆ If product enters eyes wash immediately with copious amounts of cold water.
- ◆ Keep out of reach of children.
- ◆ Do not ingest.
- ◆ Some people are more sensitive to chemical products than others. If irritation occurs, discontinue use.

Always follow the manufacturer's recommendations when using this product. It is the users responsibility to determine suitability. Safety data sheet available on request for professional user.

Specification Summary

Compatibility	all commonly used materials, all metals and plastics
Appearance	pale blue
Odour	Slight
pH	6.5-7

Container Sizes

Code:	BDPC600
Size:	1L

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties rights and, if necessary clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the products for a particular purpose.
